

## TODAY'S AGRICULTURE

You owe it to yourself to consider a career in Agriculture! From the streets of New Haven to the farms of Litchfield, there are over 200 rewarding and challenging careers. Careers that offer plenty of opportunity for financial gain, as well as personal growth and satisfaction. It is a profession you can take pride in. With the training you can get from the vocational agriculture program you can develop the skills, training and experience needed for an agricultural career. It can begin as easy as seeing your guidance counselor.
